Frankie usage report

16 April 2025 - 13 October 2026

Messages and users	Total	Included in the count
Messages sent by users	**93,987**	Questions, follow-ups and other replies
Messages sent by Frankie	**332,665**	168,409 regular + 164,256 automatic/template messages
Users who sent messages	**3,838**	Exported identifiers; student status is not verified
Users with no sent messages	335	Present in the export, with no inbound messages
Unknown sender	429	Records excluded from both message totals

What users asked for most

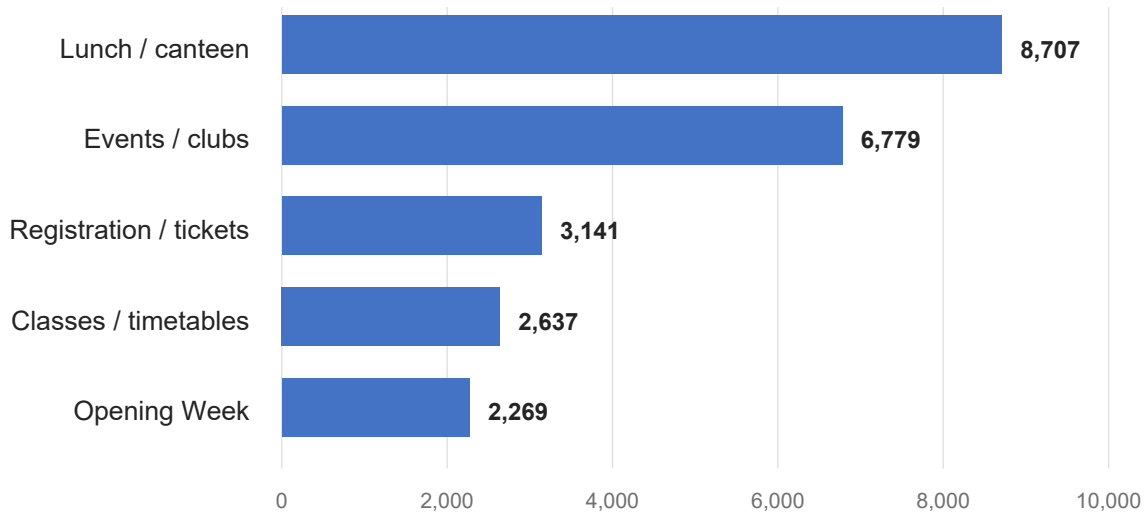

Chart measure	**Related messages grouped into help requests (estimate). Includes the first targeted review: 180 previously unclear groups reassigned.**
Scope	All exported messages were processed. Topic and response categories remain estimates, not verified complete-answer or accuracy rates.

Most-used topics and examples

What users asked about	Help requests	Users	User messages	Served* estimate	Actual user message
Food / lunch / canteen	8,707	1,191	11,024	**82.9%** 7,216 / 8,707	"What is the menu today"
Events / clubs / networking	6,779	2,216	14,472	**34.8%** 2,361 / 6,779	"Hi Frankie! What events are coming up?"
Registration / tickets / attendance	3,141	1,578	6,223	**37.3%** 1,172 / 3,141	"am i registered?"
Timetables / classes / courses	2,637	1,335	5,222	**34.3%** 904 / 2,637	"Can you give me full class schedule"
Opening Week / onboarding	2,269	1,240	4,357	**34.9%** 792 / 2,269	"What is the dresscode for the first and also the second day of orientation week?"
Exams / grades / assignments	1,652	775	3,322	**32.0%** 529 / 1,652	"Where can I see my exam schedule?"
Campus / facilities / transport	1,603	969	2,987	**45.9%** 735 / 1,603	"How can i print things in the library"
IT / Canvas / accounts	1,118	718	2,454	**41.4%** 463 / 1,118	"When can I go to the it support?"
Documents / student ID / administration	824	613	1,449	**39.1%** 322 / 824	"What should I do if I lost my student id"
Careers / jobs / internships	581	426	1,188	**35.5%** 206 / 581	"Can you provide feedback on my cv?"

How to read the new column

***Automated response proxy, not verified success.** All 42,444 grouped help requests were screened; percentages use every group in that topic, not the 100-request sample. Counts below each percentage show qualifying groups / all groups.

A group qualifies when every explicit request turn has detected answer-like information or requested navigation, without explicit inability/service-unavailable wording in that turn or detected negative user feedback in the group. Unverified bookings/tickets and templates do not qualify on their own.

Rules do not establish that the answer is correct, complete or relevant, or that an action worked. Unclear and mixed outcomes remain in the denominator. Clarification across turns can undercount served requests; groups not qualifying are **not necessarily failures**.

Cross-check: agrees with 72 of 100 existing contextual reviews (38 positive and 34 negative matches; 8 false positives, 20 false negatives). Review scope differs: initial need versus every request turn.

Help requests: related messages grouped automatically (estimate); one need can be split or several combined. Users count once per topic; user messages include follow-ups and thanks.

First targeted topic review (unchanged)

180 groups reassigned: lunch 103; Opening Week 24; language / assistant capabilities 26; events 12; student documents / administration 12; campus 2; careers 1. These groups contain 263 user messages. Unclear groups remaining: 12,033 (previously 12,213).

Other topics and event messages

What users asked about	Help requests*	Users	User messages	Actual user message
Study advisors / staff contacts	515	383	933	“Do you know who my Study advisor ist”
Fees / scholarships / funding	186	152	371	“Where can I find the invoice”
Assistant capabilities / technical feedback	185	167	452	“Perfekt wofür steht ow und was kannst du?”
Unsubscribe / stop notifications	80	66	106	“Could you please stop sending me the lunch menu”
Notification preferences / opt-out	64	60	138	“Can you turn on notification please”
Housing / visas / relocation	50	43	132	“can you help with like finding accommodation?”
Wellbeing / personal support	20	18	49	“What to do if I have academic stress from this university? Whom do I contact”
Topic still unclear / not yet reviewed	12,033	2,723	22,477	Context-dependent questions and other wording still awaiting classification.

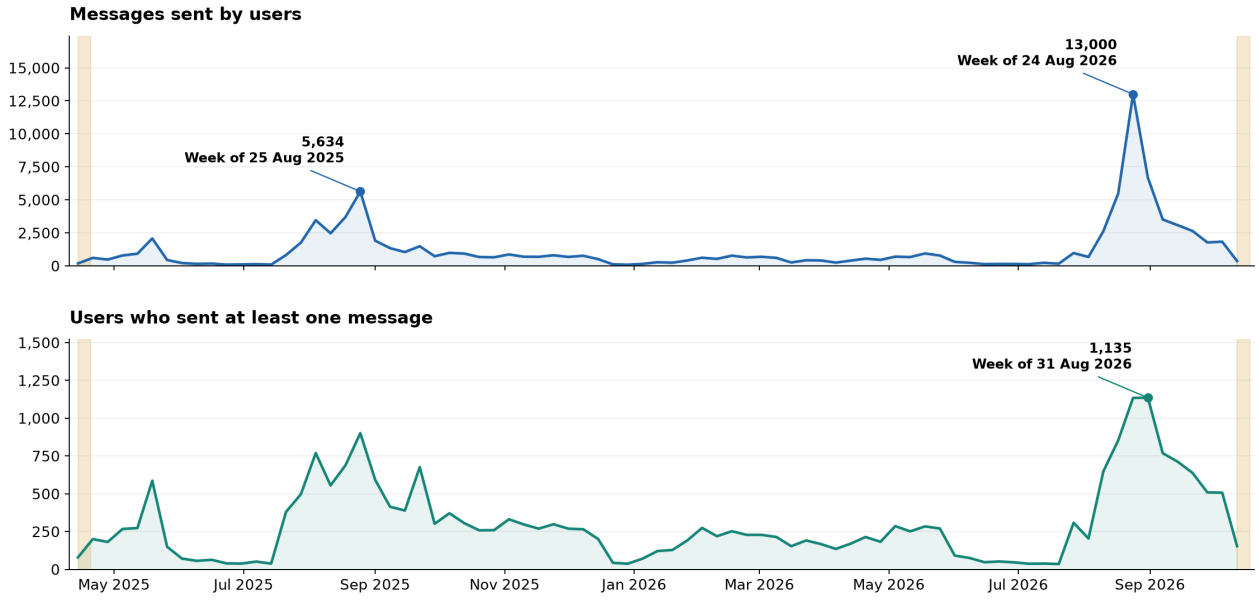

When did event messages start?

Milestone	Date / period	What was recorded
First event invitation	23 April 2025, 16:30 local time	FS Music Spring Concert, scheduled for 29 April. First booking confirmation at 16:33 the same day.
Early sending	April / May 2025	72 / 612 event messages
Summer increase	August 2025	2,035 event messages
Growth in 2026	May / June 2026	2,860 / 5,017 event messages
Sharp increase	August / September 2026	**35,482 / 56,762 event messages**
Latest period	1-13 October 2026	21,493 event messages; incomplete month
Messages counted	Automatic event templates	Includes invitations, confirmations, reminders, digests, cancellations and Opening Week logistics.
First observed	Export starts 16 April 2025	Earlier sending is unknown; this is not a verified launch date.

When did usage rise and fall?

When and how much was Frankie used?

16 Apr 2025–13 Oct 2026 | User-sent messages only | Weekly totals

Shaded edge weeks are incomplete. Weeks run Monday–Sunday (Europe/Budapest).
Users are counted once per week and may appear in multiple weeks. Frankie notifications are excluded.

What stands out	When	Numbers
Most user messages in one complete week	2026-08-24 to 2026-08-30	**13,000 messages**, 1,134 users
Most users in one complete week	2026-08-31 to 2026-09-06	**1,135 users**, 6,670 messages
Largest weekly increase in message count	2026-08-24 to 2026-08-30	5,477 to 13,000: **+7,523 (+137.4%)**
Largest weekly decrease in message count	2026-08-31 to 2026-09-06	13,000 to 6,670: **-6,330 (-48.7%)**
Highest-volume week in 2025	2025-08-25 to 2025-08-31	5,634 messages; 901 users

Coverage	**First and last weeks are incomplete and excluded from peak/change comparisons. Counts include only user-sent messages.**

Do users keep coming back?

Return at any later week	What it means
2,978 of 3,817 users (78.02%)	Sent a message in a later fully observed week. Gaps are allowed; users have at least two full weeks since their first recorded message.

Since first message	Users included	Used that week (gaps allowed)	Used EVERY week (no gaps)
Week 2 (days 8-14)	3,817	1,615 (42.31%)	1,615 (42.31%)
Week 4 (days 22-28)	3,777	1,372 (36.33%)	622 (16.47%)
Week 8 (days 50-56)	3,336	614 (18.41%)	65 (1.95%)
Week 12 (days 78-84)	2,495	211 (8.46%)	4 (0.16%)
Week 26 (days 176-182)	2,447	228 (9.32%)	0 (0.00%)
Week 52 (days 358-364)	2,281	131 (5.74%)	0 (0.00%)

Counting rule	Meaning
Users included	Only users whose full period fits before the export ends. For four weeks, at least four full weeks must have passed since the first recorded message.
Use and weeks	At least one user message per seven-day period, starting at the first recorded message. Notifications alone do not count.
Limits	Earlier use is unknown. Rows overlap; a missed week does not prove permanent abandonment.

Does Frankie provide an answer?

Detected message content	Messages	Share*	How to interpret it
Gives information or instructions	**43,938**	**26.09%**	Menus, dates, steps or other information; may be partial or proactive. Not a verified complete-answer count.
Says it does not know or cannot confirm	**12,084**	**7.18%**	Some also give partial help or a referral.
Gives a link after the user asks for one or asks where to find something	1,553	0.92%	Requested navigation; link correctness not verified.
Gives a link or referral without detected answer content	**12,123**	**7.20%**	May send the user elsewhere to find the answer; some may be appropriate navigation.
Asks for clarification	561	0.33%	Requests more detail or context.
Reports ticket, booking or preference status	981	0.58%	A confirmation does not independently prove the action succeeded.
Reports maintenance or service unavailability	214	0.13%	Service notices.
Greeting, acknowledgement or conversational follow-up	30,003	17.82%	Includes thanks, offers of help and “let me check”.
Cannot be classified reliably	**66,952**	**39.76%**	Kept unknown; not counted as answered or failed.
All regular messages	**168,409**	**100%**	Every regular message counted once.
Automatic/template messages	164,256	-	Invitations, reminders and updates; excluded from the percentages.
All Frankie messages processed	**332,665**	-	Full export, not a sample. Automatic rules classify wording, not whether each user's need was resolved.

***Share of regular messages**	**Automatic wording rules classify every regular outgoing message once. Percentages exclude templates. One message is not one request; several messages may answer one need.**

Where does the information come from?

User need	Source path	Observed response	Observed limitation
Menu and prices	Canteen website through the canteen service	Dishes and prices	Sometimes no menu was available.
Upcoming events	CRM/event system and some BookStack documents	Event lists, dates and descriptions	One reviewed exchange contained an outdated list.
Registration and tickets	CRM/event and booking workflows	Registration links, confirmations and ticket messages	Some exchanges ended in clarification or referral; database changes were not independently verified.
Opening Week	BookStack orientation documents and event/schedule workflows	Dress codes and schedule details	Personal schedules or exact times were sometimes missing.
Classes and exams	Programme/exam documents; Canvas, Online Campus and TimeEdit links	Some class-day information and timetable links	Links sometimes replaced the requested dates or full schedule.
Student ID, IT and staff support	BookStack administrative, IT and contact documents	Replacement steps, support hours and contacts	Some contact details were unavailable; account problems were referred to IT.
Notification preferences	Subscription/preference workflows	Acknowledgements of requests to stop messages	Saved preference changes were not independently verified.
What the sources establish	BookStack feeds the internal knowledge base	These are observed examples, not success rates for each topic	A source association or system link does not prove a live lookup for every answer.

Evidence	**Consolidated conversation export and Frankie technical documentation (1 October 2026). Examples show observed responses, not overall accuracy or satisfaction.**
